To Whom It May Concern,

On behalf of my client, Circle K, we would like to request you review and grant approval to add the 112" tall by 96" Circle K monument sign. We would be removing the existing high-rise signage and installing the new monument sign. The reason being that LEDS are not allowed in the high rise scroller sign. LEDs are vital to our business because they allow customers to better view gas pricing. The other big reasons are that we operate end to end pricing from a corporate level by having these LEDs. We also advertise our customer loyalty program through the small alternator on the sign. Circle K holds their branding to a high standard. Denying this signage would cause the site to look "incomplete." It would hinder this business from flourishing to its full potential if visibility is minimized. We want to set a great first impression to residents and travelers alike. We have reviewed neighboring businesses along this roadway as well as to ensure that these signs will not look out of place and hope that you will grant this request.

CK 4051 - 3790 Chambers Rd Aurora, CO 80011

Kind regards,

Crystal Price
