

Project Name: Bioscience 5  
Meeting Date: February 9, 2019  
Meeting: DD Review #3  
Location: Virtual

February 18, 2020

Paul Gibson, AIA  
Sr. Project Manager  
MOA Architecture

Paul,

Thank you for your continued partnership and coordination with the FRA. The DRB has approved the design for the Bioscience 5 building and recommends site plan approval to the City of Aurora with minor modifications. Please note that the 23rd Avenue streetscape, which this project is responsible for installing, will be reviewed by the DRB and City as a separate project.

- Add trees along street planter cut-outs where they appear to be missing.
- Verify tree species/canopy structure along Revere are compatible with anticipated truck turning movements.

Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Johnson", enclosed within a large, loopy, handwritten oval.

Mark W. Johnson, Design Review Board Chair
