Re: Fourth Submittal Review: Public Storage Site Plan (formerly Turnmar Storage) – Minor Amendment
Case Number: 1984-6032-04

Thank you for your submission, which we started to process on August 15, 2018. We have reviewed the plans and your submission addressed all of our review criteria. No further revisions are due at this time. We are asking for mylars to bring the planning process to closure.

To ensure proper tracking when you submit your mylar drawings, please use our Mylar Checklist, attached to this letter. The Planning Department reserves the right to reject any mylars that fail to address these items. Please note that all easements by separate document and license agreements must be finalized prior to recording the Site Plan.

I would like to remind you that before construction or building permits can be issued for your project, review and approval of the construction drawing sets must be completed, in addition to completing the Planning review process. Civil plans need to be submitted to the Engineering Division of the Public Works Department and building plans need to be submitted to the Building Division of the Development Services Department. Although you will submit these plans separately, these two review processes may be conducted concurrently. You should also make sure that any necessary utility extension agreements are executed. For assistance with Civil Engineering or Building Department processing or scheduling, please contact the Office of Development Assistance who will be pleased to assist you.

In our Aurora Advantage 4 Business initiative we are endeavoring to improve our customer service. Below is a link to a survey that will help us measure how we are doing in our efforts. We would greatly appreciate your participation. Please visit the link and take the survey at your earliest convenience. Thank you!

As always, if you have any comments or concerns, please give me a call. I may be reached at 303-739-7261.

Sincerely,

Debbie Bickmire, Planner I
City of Aurora Planning Department
