ConocoPhillips Contacts

24 hr. Emergency Contact Number

1-877-534-4117

ConocoPhillips maintains emergency “on-call” personnel on a 24 hr/day basis that can be reached at the number above. Non-emergency contact may be made by calling ConocoPhillips’ local office at 303-268-3703 Monday-Friday 8:00am-4:30pm (Except Holidays)

Evacuation Route

Prior to the start of any work or change of scope on a location, all onsite personnel (including contractors) are required to attend and participate in a Job Safety Analysis (JSA) meeting. During the JSA, primary and secondary muster points, along with an evacuation plan, are determined and communicated to every person working on the location. The muster points and evacuation plan are highly dependent on the type of work being performed and weather conditions. In an event where conditions necessitate evacuation of nearby residents, Aurora Fire Rescue will take the lead.

Emergency Health Care

In an event where emergency health service is required, 911 will be called and emergency medical personnel will be dispatched to the location. Emergency medical personnel will determine the most appropriate emergency health care facility.

Facilities Map (Proposed)

This location has not been constructed, therefore an "As Built" cannot be provided. The Map below represents the most current depiction of the placement of facilities. The actual facilities may vary to some minor degree.
