

## Aurora Academy Charter School Site changes 04/15/2020

We are proposing to add a 10' x 18' wood storage shed with 2- 4' wide access doors. Installed & built by Tuft Shed. To be located along side of our tractor shed. This new shed is being used for excess school furnishing such as desk, chairs, & tables. Please see photos for location of new shed. Shed will be located in the northwest corner of gymnasium & main building. One possible parking space will be eliminated.
