

Transmittal

DATE: 7.16.2018

TO: Dan Osoba / City of Aurora Planning Department

FROM: Sprint PCS c/o Mark Paiz

RE: CMRS DN90XC31 Sprint PCS at 5001 S Parker Road

Dear Mr. Osoba,

Hope all is well. Sprint PCS is seeking approval from the City of Aurora Planning Department to place a communications facility on the rooftop of Xcel Transmission Tower for the above and attached location. . Sprint PCS proposes mount antennas within matching screens on the roof of the existing building, with outdoor equipment cabinets placed on the ground and behind the building and screened by the 8' decorative existing wall. The design meets all the criteria for the City of Aurora zoning code 146-1200 B and C by utilizing and existing structure to minimize the visual impact and adding additional towers.

Please feel free to contact me with any questions or required additional items.

Respectfully

Mark Paiz | 13845 West Atlantic Ave. | Lakewood, Co 80228 | 303.915.3428 – Direct Dial
