Re: Second Submission Review– MCC 3-66 25-27 GMT – Oil and Gas Permit
Application Number: **DA-2211-00**
Case Numbers: **2019-6063-00**

Dear Mr. Schuster:

Thank you for your second submission, which we started to process on Wednesday, March 18, 2020. We reviewed it and attached our comments along with this cover letter. The first section of our review highlights our major comments. The following sections contain more specific comments, including those received from other city departments and community members.

Since several important issues still remain, you will need to make another submission. Please revise your previous work and send us a new submission on or before Thursday, May 7, 2020. Your administrative decision date is tentatively set for Tuesday, June 23, 2020.

Note that all our comments are numbered. When you resubmit, include a cover letter specifically responding to each item. The Planning Department reserves the right to reject any resubmissions that fail to address these items. If you have made any other changes to your documents other than those requested, be sure to also specifically list them in your letter.

As always, if you have any comments or concerns, please give me a call. I may be reached at 303-739-7209.

Sincerely,

Juliana Berry, Planner II
City of Aurora Planning Department

GMT MCC OIL AND GAS PERMIT REVIEW

Second Submittal Review

SUMMARY OF KEY COMMENTS FROM ALL DEPARTMENTS

Repeat Comments:

- Be consistent with notes, labeling, descriptions, and details, including reference to the Operator Agreement BMPs (see Items 1, 8—9, 12—15, 32—34)
- Coordinate First Creek drainage improvements design with the City, with the Majestic Commercenter developer, and with the Mile High Flood District; and regional trail alignment and access road alignment with the developer and the City (see Items 1 and 10)
- Follow the City of Aurora Storm Drainage Design and Technical Criteria manual to design required features of the extended detention basins. Ensure proper setback to the Prairie Water pipeline and the water main, and label on the plan set (see Items 1 and 29)
- The Preliminary Drainage Report must be approved (see Items 1 and 30)
- Provide a copy of the applicant's responses to comments received from the public and outside agencies (see Item 10)
- Add in details to the Operations Plan (see Item 12)
- Commence the process of required license agreements with the City (see Item 19)
- Make required Groundwater Quality Monitoring Plan revisions (see Item 23)

New Comments:

- Add four Notes to Sheet 1 of the Plan Set (see Item 1)
- Prepare and submit an Alternative Location Analysis as part of the Letter of Introduction (see Item 8)
- Please continue the process of negotiating a Road Maintenance Agreement with the City of Aurora (see Item 31)
- Revise the Air Quality Plan as requested (see Item 32)
- Please contact Brianna Medema at bmedema@auroragov.org for comments, and refer to the site plan and Traffic Management Plan for redlines.
- As a reminder, the City has developed CAD Data Submittal Standards for internal and external use to streamline the process of importing AutoCAD information into the city's Enterprise GIS. Please note that a digital submission meeting the CAD Data Submittal Standards is required before your final Site Plan mylars can be routed for signatures or recorded. Please review the CAD Data Submittal Standards, including templates and required layer file labeling, at <http://tinyurl.com/AuroraCAD>. Email your Case Manager the appropriate Site Plan file before submitting your final Site Plan mylars. Once received, the City's AutoCAD Operator will run an audit report and your Case Manager will let you know whether the file meets or does not meet the City's CAD Data Submittal Standards. Please email CADGIS@auroragov.org for questions or more detailed instructions.
- Respond to additional redline comments

REVIEWERS

- Planning – Steve Rodriguez and Juliana Berry / 303-739-7186 and 303-739-7209 / srodrigu@auroragov.org and jberry@auroragov.org / Comments in dark teal

- Parks, Recreation, and Open Space (PROS) – Curtis Bish / 303-739-7131 / cbish@auroragov.org / Comments in purple

PLAN SET COMMENTS

1. Plan Set

1A. Sheet 9 (PROS)

- It is understood that the Majestic master developer is responsible for the First Creek channel improvements project including construction of the regional trail. PROS will continue to coordinate with Majestic to address the trail alignment, but the GMT development application poses challenges that should be dealt with now so as to not preclude an alignment opportunity.
 - The access road to the well pad site should be compatible with other projects under design now and those which will be constructed in the near-term future. The planned stream improvements for First Creek should be incorporated on the plan for context. The decision as to whether the access road should be shifted needs to take into account whether a maintenance road for the sanitary sewer interceptor and detention pond (which might double as the regional trail) can be accommodated to the west.

1B. Sheets 11—13 (Landscaping)

- Add “NOT FOR CONSTRUCTION” text box.

1C. Sheet 1 (Public Works)

- Add the following note: “GMT acknowledges the responsibility of the storm sewer outfall relocations for the MCC 3-66 25-27 GMT site, post First Creek Improvements. The limits of erosion control protection for detention pond spillway may require extension post First Creek Improvements. GMT agrees that said work shall include design, construction and all associated costs. Changes to civil plans will require a civil plan revision submittal to the City. The re-design of the outfalls shall be initiated with the approval of the stream management civil plans. Construction of the outfall shall be concurrent with the corridor construction. Outfall location and design will require review and approval from City and Mile High Flood District.”.
- The site plan will not be signed-off on by Public Works until the Preliminary Drainage Report is approved.

1D. Sheet 3 (Public Works)

- Add the following note: “An approved Pond Certificate is required prior to returning Fiscal Security Deposit (as well as other conditions within the Stormwater Permit) and prior to commencement of business operations.”.
- Include FIRM Panel and effective date for Floodplain.
- Please provide contour labels for the proposed contours.
- All fluid storage tanks to have secondary containment (Water).

1E. Sheet 4 (Water)

- What is the setback to the floodplain from the well heads? Please include setback dimensions for each phase.

1F. Sheet 9 (Water)

- Please coordinate First Creek channel improvements with the Majestic Commercenter master developer for site access. Access to Aurora Water utilities must remain unobstructed at all times.

1G. Ensure that all setbacks to 60" Prairie Waters (PW) pipeline and the 12" water main in the easement to the west of the PW line are labeled. (Water)

1H. Show and label any recommended noise mitigation measures, oriented towards the nearest residential uses, on all relevant sheets. (Planning)

1I. Add to any tertiary containment label that it is an earthen berm, and include height.

1J. Sheet 1 (Planning)

- *Repeat Comment:* Reference the applicable OA BMP in Notes #3, 4, and 7.
- Update the noise modeling sentence in Note #6 to reflect the fact that modeling has been completed.
- Alter the proposed haul route line symbology on the Context Map to better differentiate it from the roads.

- Update the “Permitted Oil and Gas Well Site per COGCC GIS” and “Permitted Water Well per Colorado Division of Water Resources” data in the Context Map to more recent versions than August 2018, as available.
- *Repeat Comment:* Add in the Grimm 16-25 decommissioned/plugged well and neighborhood outlines to the Context Map, including in its legend.
- 1K. Sheet 2 (Planning)
 - *Repeat Comment:* The Vicinity Map should be the 1-mile impact area map, revised per the first submission comments.
- 1L. Sheets 3—9 (Planning)
 - *Repeat Comment:* Add in the height to “existing fence” labels.
- 1M. Sheets 3, 6, & 14 (Planning)
 - *Repeat Comment:* Refer to the Lighting BMP in General Construction Note #5, and add in language indicating downcast light to not shine beyond the well site boundaries.
- 1N. Sheets 3 & 6 (Planning)
 - Show and label the signs referenced in General Construction Notes 9 & 10 as relevant, and include the inset details.
- 1O. Sheets 4—8 & 12 (Planning)
 - The tertiary and secondary containment labels, as well as the tank battery label, appear to all be pointing to the shape perimeter- please clarify the arrows.
- 1P. Sheets 4—8 (Planning)
 - Identify the “W” symbols.
- 1Q. Sheets 4—7 (Planning)
 - *Repeat Comment:* Show and label any proposed fencing, including height, and add inset details.
- 1R. Sheets 4—5 & 7—8 (Planning)
 - Add the General Construction Notes #9-11.
 - *Repeat Comment:* Show and label the wellhead and battery signs.
- 1S. Sheets 4—6 (Planning)
 - *Repeat Comment:* Show and label the chosen noise mitigation measure for the generator.
- 1T. Sheets 5 & 8 (Planning)
 - *Repeat Comment:* Show and label the privacy fence.
- 1U. Sheet 5 (Planning)
 - This sheet appears to be a replica of Sheet 4, with the exception of the added privacy fence detail inset and the Reclamation note. Will all equipment, lighting, and signage remain on site? Add details in from Sheet 4 as applicable, and remove symbols and labels that are not applicable at the Interim Reclamation stage.
- 1V. Sheet 5 (Planning)
 - Add in the OA BMP language to Best Management Practices note #8 per Sheet 4.
- 1W. Sheets 6—7 (Planning)
 - Add in missing labels where highlighted.
- 1X. Sheet 7 (Planning)
 - Add in the missing General Construction and BMP notes from the first submission.
 - *Repeat Comment:* Show and label the wildlife fence, including height.
- 1Y. Sheet 8 (Planning)
 - This sheet appears to be a replica of Sheet 7, with the exception of Notes and the added privacy fence detail inset. Will all equipment, lighting, and signage remain on site? Add details in from Sheet 7 as applicable, and remove symbols and labels that are not applicable at the Interim Reclamation stage.
 - Is the Reclamation Note from Sheet 5 relevant on this sheet? If so, add it.
- 1Z. Sheet 9 (Planning)
 - Identify the Grimm 16-25 well as decommissioned/plugged.
 - Correct “76” to “75” where redlined.
 - If the highlighted graphic is the gating system, please label it as such and add dimensions.

**1AA. Sheet 10 (Planning)**

- Enlarge the Haul Route Map to encompass more of the sheet.

1BB. Sheets 11—12 (Planning)

- *Repeat Comment:* Add the wildlife fence detail inset.
- Delete one of the two privacy fence captions.

1CC. Sheet 11 (Planning)

- *Repeat Comment:* Add sequential wellhead labels to match the other sheets.

1DD. Sheet 15 (Planning)

- *Repeat Comment:* Add the required placarding note for factory-built structures.

1EE. Add the following Notes to Sheet 1:

- The Oil and Gas Permit is subject to conformance with the Best Management Practices (BMPs) as stipulated in the Letter of Introduction and the Operations Plan and subsequent revisions.
- Whenever the City BMPs and any other law, ordinance, resolution, rule, or regulation of any kind contain any restrictions covering any of the same subject matter, whichever standards produce higher quality shall govern. If more stringent laws or BMPs are enacted in the future by the City, State, or Federal Government, the Operator must adhere to the higher quality BMP.
- If the BMPs are not adhered to, then the City may seek revocation of the Permit, pursuant to the Unified Development Ordinance Sec. 146-5.4.
- This Oil and Gas Permit and any amendments thereto, upon approval by the City of Aurora and recording, shall be binding upon the applicants therefore their successors, and assigns. This Permit shall limit and control the issuance and validity of all related permits, and shall restrict and limit the construction, location, use, occupancy, and operation of all land and structures within this Permit to all conditions, requirements, locations, and limitations set forth herein. Abandonment, withdrawal, or amendment of this Permit may be permitted only upon approval of the City of Aurora.

1FF. Clearly show the width of roads and identify items encroaching into roads. (Real Property)**1GG. Please contact Brianna Medema at bmedema@auroragov.org for comments, and refer to the plan set for redlines.****2. Vicinity / Context Map (Planning)****2A. Continue to incorporate into the overall plan set.****3. Interim Reclamation Plan (Planning)****3A. Continue to incorporate into the overall plan set.****4. Visual Mitigation Plan (Planning)****4A. Building and Structure Elevations (Planning)****7A. Continue to incorporate into the overall plan set.****LETTER OF INTRODUCTION COMMENTS**

- Update the local permitting process, and correct “NESE CORNER”, in Section C – Signage.
- Please request a vesting of property rights, as outlined in the Unified Development Ordinance Sec. 146-5.3.16.

8. Project Summary (Planning)

8A. **Pad and Access Road**- Add the noise control fence, per the Operations Plan, in to the section on a generator (last sentence of the second paragraph), and include the height.

8B. **Best Management Practices**- Update the language related to the revised Form 2A to reflect that the Form has been submitted to the COGCC.

8C. **Setbacks**- Show and label the earthen berm (Requirement per Axis OA table) in the plan set.

8D. In accordance with COGCC guidance, please prepare and submit an Alternative Location Analysis (ALA), including background on this consolidated site's selection and identifying all potential alternate locations that were considered. The analysis shall address why siting at each of the alternative locations is or is not more protective of public health, safety, welfare, the environment, and wildlife resources. Additionally, the ALA shall identify whether the chosen location meets any of the following criteria:

- The proposed Oil and Gas Location is within 1,500 feet of 10 or more Building Units;
- The proposed Oil and Gas Location is within a Floodplain; and
- At the time the Form 2A was submitted to the COGCC, the proposed Oil and Gas Location was subject to a Surface Owner protection bond under Rule 703.

9. Applicable BMPs Addressed (Narrative List) (Planning)

9A. Update all instances of the Local Government Designee to Jeffrey Moore jsmoore@auroragov.org.

9B. *Repeat Comment:* **Air Quality Plan**- Summarize the details, including air quality monitoring stations, the location selection, and a timeline that matches generally with the Project Development Schedule.

9C. **Containment Berms**- The plan set seems to indicate that secondary containment will be used- update accordingly.

9D. **Emergency Response Plan**- Update the language of the second paragraph to reflect the status of filing with both entities.

9E. **Fencing**- Update to match the plan set (i.e. composite material).

9F. **Flammable Material**- Reference BMP #31 from the narrative list for a summary of the Weed Control Plan.

9G. *Repeat Comment:* **Flowlines**- Update the "applicable county" to Adams County.

9H. **Flowlines**- As-built GIS locations and maps should also be provided directly to the City (Local Government Designee).

9I. **Insurance**- Provide the justifiable rationale supporting the minor exception request per the BMP, and outline the differences in insurance provisions as a summary of the exception request. Use "exception" instead of "variance".

9J. **Low Profile Equipment and Tanks**- Provide an explanation for why these are not technically feasible.

9K. **Maintenance of Machinery**- Will fueling over impervious material occur on site? An impervious fueling pad is not identified on the plan set.

9L. **Mud Tracking**- Summarize the intended measures.

9M. *Repeat Comment:* **Noise Management Plan**- Summarize the baseline noise study results.

9N. **Odor**- Summarize how the odors emitting from the well site will be "controlled immediately".

9O. **Plugged and Decommissioned Well Testing**- Update the assessment list to reflect its status (for example, a. is completed already).

9P. **Strict Application of BMP Standards**- Update to reflect only the one exception being sought, and use "exception" instead of "variance".

9Q. *Repeat Comment:* **Trailers**- Specify whether temporary trailers will be utilized (the plan set seems to indicate that they will), and whether they will be residential or security in nature.

9R. *Repeat Comment:* **Transportation and Storage of Fluids**- Add in language related to vapor recovery.

9S. **Use of Pipelines**- Correct notification to the City's Planning Director or designee to the Local Government Designee.

9T. **Wastewater and Waste Management**- Update language to reflect that the operator will provide the Local Government Designee with copies of the waste management reports.

9U. *Repeat Comment:* **Water Quality Monitoring Plan**- Identify possible monitoring wells.

9V. **Wellbore Integrity and Aquifer Protection**- Identify depths, if known, and indicate that copies of the Bradenhead test results will be provided to the Local Government Designee.

**10. Neighborhood Meeting Schedule & Results / Response to Public Comments (Planning)**

10A. The Neighborhood Meeting Results summary is acceptable as submitted.

10B. Additional Electronic Comments received by the City:

- Name: David Brown

Organization: 4032 Perth Street, Denver CO 80249 (dbrown80249@gmail.com)

Comment: "This location is too close to existing and future housing. I do not want the project approved."

- Name: Adam Stolte

Organization: 4090 Orleans Court, Denver CO 80249 (astolte1@gmail.com)

Comment: *Please see the attached letter.*

Comment: *Please see the attached letter.*

- Name: Patricia Dunn

Organization: 12568 E. Alaska Place, Aurora CO 80012 (patdunn4@comcast.net)

Comment: "commenting on active project - DA 22111 - it would be highly irresponsible to approve this project due to the fact that crude is selling at less than 40.00, small oil and gas companies are going bankrupt, the City of Aurora hasn't updated their rules, Extraction that has an operating agreement stock is \$26.00, which indicates even a large oil and gas company can't make it. Also if you do approve, their bond should be MUCH higher in case they go belly up."

- Name: Leticia Martinez

Organization: 20421 E. 52nd Avenue, Denver CO 80249 (laddieco@msn.com)

Comment: "I am a city and county of Denver resident however our property in Green Valley Ranch is located on the border line with Adams County and Aurora. We have been blessed not to have the oil and gas industry in our back yard. Many other communities across the metro area have not been so lucky. I am opposed to the oil and gas industry locating anything in this Far East district. We already deal with Denver International Airport noise and the airline industry. Please do not compound an already existing airline industry and expansion, a crowded home building boom with an anticipated oil and gas industry. The industry already exists east of Denver in Watkins. Keep it there and explore your east, out of our back yard!"

- Name: Sara Jenkins

Organization: 19540 E. Batavia Drive, Aurora CO 80011 (flowerg0909@yahoo.com)

Comment: "I am very concerned about granting a permit to allow gas and oil wells near my community. I see no reason to allow a permit. I foresee more trucks, noise and pollution. We currently have numerous large warehouses in this area that has brought so much traffic and congestion and to add more pollution to our neighborhood would be a travesty. Traffic is at it's limit now."

- Name: Tetiana Cary

Organization: 4434 Andes Street, Denver CO 80249 (taniushka.tata@gmail.com)

Comment: "Hello, my neighbors and my family are very concerned with the new proposal on building 16 Oil wells in the neighborhood at Piccadilly rd and 42nd Ave. The adverse affects on the surrounding area are countless, but just to name a few would be drop in property values, business closures, no more new developments, the stinky smell and the way that pollution will affect our health and wellbeing is the scariest of all! I didn't buy a house in Commerce City for health reasons and wouldn't want it here in GVR. You need to build it far away from the city please!"

- Name: Thomas Carllon

Organization: 18591 E. 53rd Avenue, Denver CO 80249 (tomcarllon@comcast.net)

Comment: "I believe that the drilling/fracking operations still need a lot of improvement in order to protect the health of the public. I am opposed to drilling at this site."

- Name: Deborah Beckworth

Organization: 4830 Flanders Way, Denver CO 80249 (deebee-chica@comcast.net)

Comment: "I know fracking can provide additional oil and gas resources and I am not against it. What I am against is that the process can ruin a residential community. We are already asked, and doing our best to participate, to conserve water..."use what you need." Fracking takes thousands of gallons of water and could reduce our water supply and increase the price. The flow drilling operations that include fracking can cause contamination of surface and drinking water, and the all-natural gas drilling can cause the leakage of methane into the atmosphere (National Geographic, October 4, 2013). The pressure to the earth or rock formation should be of concern as well. Development started in Green Valley Ranch (GRV) in 1981 which now has 11,596 (± 183.62) housing units and a population of 36,555 ($\pm 1,588.12$) along with businesses serving the area and more being built (The Piton Foundation and City and County of Denver). It is one thing if the wells were already there and development happened, then people that moved in accept everything that results from the fracking; but GVR was here first and have built two new schools to accommodate the many children and growing families in the area. There has been plenty of time for the oil and gas company(s) to frack that area as Adams County was annexed the land back in 1980. I truly believe that it is too late because of all the residents in place and more coming. Please take into consideration the many families and children of our community and use the land to develop housing and businesses."

- Name: Susan Szulc-Flissi

Organization: 20400 E. 45th Avenue, Denver CO 80249 (zharleybabes@aol.com)

Comment: "I am a homeowner residing in GVR. I vehemently oppose both oil & gas wells at this location. I have been well aware of the issues with this type of development, Including pollution to air, water, & noise to the environment & people, not to mention the inability of the industry's inability to deal with disasters that they have repeatedly created, ie. spills, explosions, & contamination resulting in disease, injury, & death."

- Name: Veronica Booz

Organization: vero.proact@gmail.com

Comment: "I have three children and work in the schools, so I'm around youth all day and it is real: the sense of unknown dread for the future due to abuse and exploitation of the planet. Basic common sense and science tells me, pulling out gases from the Earth is detrimental to our atmosphere and air quality.

I know that the City of Aurora and the GMT Exploration Company, or any company, will NOT guarantee zero leaks in gas or accidents and zero health related issues that will arise from this gas permit. I know that the water that will be used over decades will no longer be acceptable to drink. I know that this is not a renewable energy. It has a limit and when it's done, that's it, no more. I know that the City of Aurora and the GMT Exploration Company, or any company, will NOT guarantee that value of my property, on those of my neighbors, will benefit from drilling less than two miles from my house.

How does Gas Permit- Case NO. DA 2211 00_Green Valley Ranch Homeowners directly benefit my community and Earth today and 30 years from now?"

- Name: Property Owner Green Valley Ranch Denver

Organization: advancegvrstrategies@gmail.com

Comment: *Please see the attached letter.*

- Name: Karen King

Organization: Malaya Street, Denver CO 80249 (kkingkk@mac.com)

Comment: "Please NO FRACKING near OUR homes. Fracking causes earthquakes! Please go out further away from residential areas. Thank you"

- Name: Francisca Nunez

Organization: 5537 Flanders Way, Denver CO 80249 (pn143pn@comcast.net)

Comment: "To Whom it may Concern:

I am writing today to ask that you approve the request for an oil and gas drilling permit for GMT Exploration for a well located at Piccadilly Rd and E42nd in Aurora. Oil and gas operations are vital to the state of CO as they provide millions of dollars in state and local taxes which are used to support education and other community programs. It will also provide jobs in the community which, during these very uncertain times, will help keep CO families have an income in their households. Maintaining energy independence as a nation should be a priority and CO has been leading the charge on safe and regulated environmental practices for Oil and Gas drilling and hydraulic fracturing operations for decades. I appreciate your time and attention.

Kind Regards,

Francisca Nunez"

- Name: Travis Sena

Organization: 19360 E. 41st Avenue, Denver CO 80249 (travirsena@gmail.com)

Comment: "Please allow project!"

Please consider that the current guidelines...if met there should be no reason to oppose this project. Please consider the people that are against project the distance they are from location from site. My understanding is about 20ish homes right about a mile from the boundary of site...which MAYBE more then a mile from finished well head site. Please require noise restrictions (I'm sure this far away I won't hear a thing) as a way to make people understand you heard concerns. Thank you"

- Name: Teri Gambrell

Organization: 5538 Espana Court, Denver CO 80249 (teri.gambrell@outlook.com)

Comment: "I am opposed to this"

- Name: Greta Nason

Organization: 5536 Gibraltar Street, Denver CO 80249 (gretanason2011@gmail.com)

Comment: "To whom it may concern, I personally did not move to an area with fracking. I do not want to see our local area in ruin due to fracking. I grew up in Weld county I hate going home and seeing the rigging and the noise these operations bring. I like looking out into the sunset not seeing this equipment. Please do not do this to our beautiful community."

- Name: Rebekah Lynn

Organization: bekah1love@hotmail.com

Comment: "I oppose an oil and gas permit that would be in Adams County, southeast of the Piccadilly Road and East 42nd intersection to be granted to GMT Exploration Company LLC, or any other oil and gas company"

- Name: Property Owner Green Valley Ranch Denver

Organization: advancegvrstrategies@gmail.com

Comment: *Please see the attached letter. (version 2)*

- Name: Stacie Gilmore

Organization: 4685 Peoria Street, Suite 215, Denver CO 80239 (Stacie.Gilmore@denvergov.org)

Comment: "As the Denver City Councilwoman representing the communities of Montbello, Parkfield, Green Valley Ranch and High Point, I recognize the importance of promoting transparent information and advocating for community voice to be heard. From the community, project MCC 3-66-25-27 GMT – Oil and Gas Well permit brings forward concerns regarding the health and environmental impacts to our neighborhoods.

With approximately 27 homes from Green Valley Ranch within the mile radius of the site, there are concerns regarding air and water quality, noise pollution, and understanding the safety measures for this project. With sustainability being in the forefront for many cities, the surrounding Metro area is looking to strengthen and address climate change in various critical areas. In understanding the importance to shift the focus to sustainable and renewable energy, the continual practice of drilling for oil puts a strain on our resources.

It is important for my Council office to be included in any communication regarding the progression of this project due to the proximity of the site to my council district. The neighborhood is deeply concerned about transparency around oil and gas permits due to historical lack of notification and community input. We want to ensure we are giving the community enough time to engage, participate, and communicate. Thank you for your time. Please contact me at Stacie.Gilmore@denvergov.org or 303-720-9139 if you have any additional questions."

Comment: *Please see the attached letter.*

- Name: Greg Dean

Organization: Adams County, Community & Economic Development Department, 4430 South Adams County Parkway, 1st Floor, Suite W2000A, Brighton CO 80601 (gdean@adcogov.org)

Comment: *Please see the attached letter.*

**11. Response to Initial Review Comments (Planning)**

11A. This requirement is acceptable as submitted, though direct responses to commenters (including outside agencies) is required and copies of those responses must be included in future submittals.

OPERATIONS PLAN COMMENTS**12. Operations Plan (Planning)**

12A. *Repeat Comment:* Describe how the site will be monitored daily (Introduction).

12B. *Repeat Comment:* Specify the fencing (including wildlife fence and noise control fence) height and material within the Introduction, Phase 1 first paragraph, Phase 2, and Description of Production Operations second paragraph.

12C. *Repeat Comment:* Will the temporary ceasing of the initial two producing wells possibly require Interim Reclamation, per COGCC? If so, briefly note that in the Phase 2 section.

12D. *Repeat Comment:* Mention permanent fencing with details in the Description of Production Operations.

12E. *Repeat Comment:* Reference to the Color BMP #9 should be made in the second paragraph of the Description of Production Operations, related to tanks' and facilities' paint.

12F. *Repeat Comment:* Please add frequency of inspection of the site for "required maintenance, hazards, trash..." in the last paragraph of the Description of Production Operations.

12G. Explain why the low profile equipment BMP #10 cannot be met (3rd paragraph of the Description of Production Operations).

12H. Add in notification to the City, including to the Local Government Designee Jeffrey Moore jmoore@auroragov.org, to the Description of Plugging and Abandonment Operations.

12I. BMPs #26 and #27 (Removal of Debris and Removal of Equipment) are not just meant for Final Reclamation, and should be referenced elsewhere in the Operations Plan in relation to each well life phase.

12J. BMP #45 (Plugged and Decommissioned Well Testing) should also be addressed prior to fracturing; additionally provide details and specific protocol for the plugged and abandoned well already identified, including notification to the City of the soil gas survey results, elsewhere in the Plan.

12K. GMT's response to Adams County's comment indicates commitment to utilization of Tier 4 engines for fracturing and completions, so make note of this commitment in the Plan.

13. Project Development Schedule (Planning)

13A. Correct the project title from "MMC" to "MCC".

13B. The ~summer 2023 Interim Reclamation projection appears to be for Phase 2; add a date range for Phase 1 to match the COGCC Form 2A.

14. Security Plan (Planning)

14A. *Repeat Comment:* Specify the permanent fencing height and material.

14B. BMP #28 (Trailers) lists construction trailers and temporary residential trailers as well as security trailers, so please reference any other trailers elsewhere in the Operations Plan.

15. Decommissioning / Final Reclamation Plan (Planning)

15A. *Repeat Comment:* Add in notification to the City, including to the Local Government Designee Jeffrey Moore jmoore@auroragov.org.

EMERGENCY RESPONSE PLAN COMMENTS**16. Emergency Response Plan (Building/Life Safety)****Field-Wide Plan**

16A. This requirement is acceptable as submitted.

Site-Specific Plan

16B. This requirement is acceptable as submitted.

17. PHA-HAZOP Analysis (Building/Life Safety)

17A. This requirement is acceptable as submitted.

COMMENTS ON OTHER REQUIRED ITEMS

18. Traffic Letter / Plan (Traffic)

18A. Please contact Brianna Medema at bmedema@auroragov.org for comments, and refer to the Traffic Management Plan for redlines.

19. License Agreements (Real Property)

19A. A License Agreement is required for the culvert in the easement. (Real Property)

19B. Clearly show the width of roads and identify items encroaching into roads. (Real Property)

19C. A license agreement is required for the access road crossing the utility easements and water mains. (Water)

19D. Work with Real Property to obtain License Agreements related to lay-flat lines.

20. Recorded Surface Use Agreement (Real Property)

20A. This requirement was satisfied at initial submittal.

21. Property Owner Authorizations (Real Property)

21A. This requirement was satisfied at initial submittal.

22. Water Delivery Method/Water Supply Plan (Water)

Water Delivery Agreement

22A. N/A, unless the need arises to obtain water from Aurora Water.

Water Supply Plan

22B. This requirement was satisfied at initial submittal.

23. Groundwater Quality Monitoring Plan (Water)

23A. It is recommended that the applicant make contact with the identified domestic well owners as soon as possible. If sampling has not occurred then initial drilling will be delayed until baseline sampling can occur.

23B. *Repeat Comment:* If installing a monitoring well, the alluvial will also need to be monitored to catch the presence of contamination due to surface spills.

23C. *Repeat Comment:* Please specify the design that the operator anticipates using if a monitoring well will need to be installed.

23D. *FYI:* Email check-ins every two weeks, to jgodwin@auroragov.org, sdekoski@auroragov.org, and slieske@auroragov.org, will be required once a conditional Oil & Gas Permit has been issued from the City to the operator. The check-in is to inform on the progress of the water quality monitoring. Check-ins start once a conditional permit has been issued and can cease once the first sample has been made and submitted to the City.

23E. *FYI:* A condition of the City-issued permit will be that the operator may not proceed with drilling until the City has received the pre-drilling water quality sample(s) from either domestic well(s) or the installed monitoring well(s).

24. Fugitive Dust Suppression Plan (Water)

24A. This requirement was satisfied at initial submittal.

25. Fluid Disposal Plan (Water)

25A. This requirement was satisfied at initial submittal.

26. Water Use Plan CDPHE Reg. 84

26A. N/A

27. Weed Control Plan (Water and PROS)

27A. This requirement was satisfied at initial submittal.

**28. Wildlife Impact Mitigation Plan (PROS)**

28A. This requirement was satisfied at initial submittal.

29. Stormwater Management Plan

29A. These Civil documents will be reviewed and commented on by the standard SWMP Review team via upload through the separate Public Works portal; please contact Public Works at 303-739-7457 to set up a Pre-Submittal meeting.

29B. The sediment basin needs to be converted to a detention basin with outlet structure once the site has been stabilized (at the completion of grading operations) Include pond sizing and outlet details with the SWMP plan submittal. Show the pipe discharge with rip rap. (Water)

29C. Ensure that all setbacks to 60" Prairie Waters (PW) pipeline and the 12" water main in the easement to the west of the PW line are labeled. (Water)

29D. The proposed setbacks from existing water lines must be accurately represented. SWMP plans and civil plans must include accurate survey data and predesign potholing of all infrastructure crossings is required. (Water)

29E. *FYI:* The City of Aurora Storm Drainage Design and Technical Criteria, and by reference the Mile High Flood District Urban Storm Drainage Criteria Manual, shall be used for designing required features of the extended detention basins including: trickle channel, forebay, micropool, maintenance access, pond volume, emergency overflow weir and outlet structure. It shall be noted that an approved Pond Certificate is required prior to returning Fiscal Security Deposit (as well as other conditions within the Stormwater Permit) and prior to commencement of business operations. (Public Works)

29F. *FYI:* Profiles for gathering lateral pipelines crossing any Aurora Water utilities, ROWs, and floodplains will be required as part of the SWMP plan. Dimension setbacks of the pipeline easement to existing 12" and 60" water mains on should be shown on the SWMP plans. (Water)

29G. *FYI:* Outlet structures will be required on detention basins- detail required (Water)

29H. *FYI:* An I&M plan for maintenance of all sediment and detention basins, as well as all other private stormwater infrastructure, is required to be submitted with SWMP plans.

30. Preliminary Drainage Report

30A. This document will be reviewed and commented on by the standard SWMP Review team via upload through the separate Public Works portal; please coordinate with Public Works to utilize that portal if you haven't already.

31. Road Maintenance / Construction (Public Works)

31A. Please continue the process of negotiating a Road Maintenance Agreement with the City of Aurora.

32. Air Quality Plan (Planning)

32A. Update all instances of the Local Government Designee to Jeffrey Moore jsmoore@auroragov.org.

32B. Add in the preparer signature page from the first submission.

32C. Include a baseline monitoring timeline that generally matches the Project Development Schedule.

32D. Add in the sentence referencing once per calendar year notification of planned inspections, in the last section of 4.2, from the first submission.

32E. Reiterate the compounds from 7.1 in 7.3.

32F. Provide references as footnote(s) to Tables 1 and 2.

32G. Ensure that the Appendix A layouts match the plan set (i.e. 30'-wide access road versus 23').

32H. Title the Appendix A layouts as Phase I and Phase II.

32I. Are the Appendix A layouts meant to show air monitoring locations? The locations aren't labeled.

33. Noise Management Plan (Planning)

33A. *Repeat Comment:* Add a Conclusion to both Reports comparing the baseline results to the relevant COGCC standards.

33B. Staff advises noise mitigation measure(s) oriented towards nearest residential, in consideration of received public comments.

34. Application Form (Planning)

Checklist

- 34A. The Water Supply Plan was submitted at first upload and found acceptable; please revise the “N/A” accordingly.
34B. The COGCC Form 2A was submitted at this second upload; please revise the note accordingly.

35. 1-Mile Radius Abutters List (Planning)

- 35A. This requirement was satisfied at initial submittal.

36. COGCC Forms / 2A (Planning)

- 36A. This requirement is acceptable as submitted- only submit a new Form in future uploads if the applicant submits a new Form 2A to the COGCC in the interim.

We oppose! Petition Results

Please take into consideration this petition sent only by email on March 31, 2020.

All 88 responds are in opposition to the MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES

All results, as of 4/07/2020, 8:30 pm

Full Petition Result Link:

https://drive.google.com/file/d/1n_r2gfRyNE5hpJbGnQzoptut9pa00tED/view?usp=sharing

The following slides are a summary of the petition.

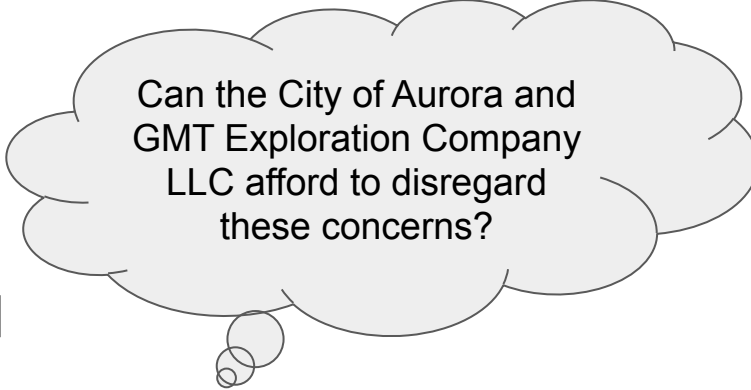

City of Aurora and the Colorado Oil & Gas Conservation Commission, please do not grant this permit.

#1 Reasons to Opposition to MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT :

- This permit will allow fracking and drilling for 30 years, or until 2050.

We need to advocate for clean air and water for our youth and future of generations.

- There will always be a risk of accidents and leaks that can result in health related issues and environmental damage.

Can the City of Aurora and GMT Exploration Company LLC afford to disregard these concerns?

Summary: We oppose this permit because:

87.5% There will always be a risk of accidents and leaks that can result in health related issues and environmental damage.

86.4% This permit will allow fracking and drilling for 30 years, or until 2050. We need to advocate for clean air and water for our youth and future of generations.

79.5% Despite efforts, this permit will lower air quality for the Green Valley Ranch residents, 80249, and beyond.

77.3% This permit will harm the environment and habitat for wild animals and local residents.

72.7% This permit does NOT support the State of Colorado's goal to reduce greenhouse gas emissions at least 50% by the year 2030.

68.2% This land should be used for clean and sustainable energy sources.

65.9% Hydraulic Fracturing (fracking) and drilling WILL NOT INCREASE the value of my home/property.

59.1% Hydraulic Fracturing (fracking) contaminates the water it uses.

Summary: We oppose this permit because:

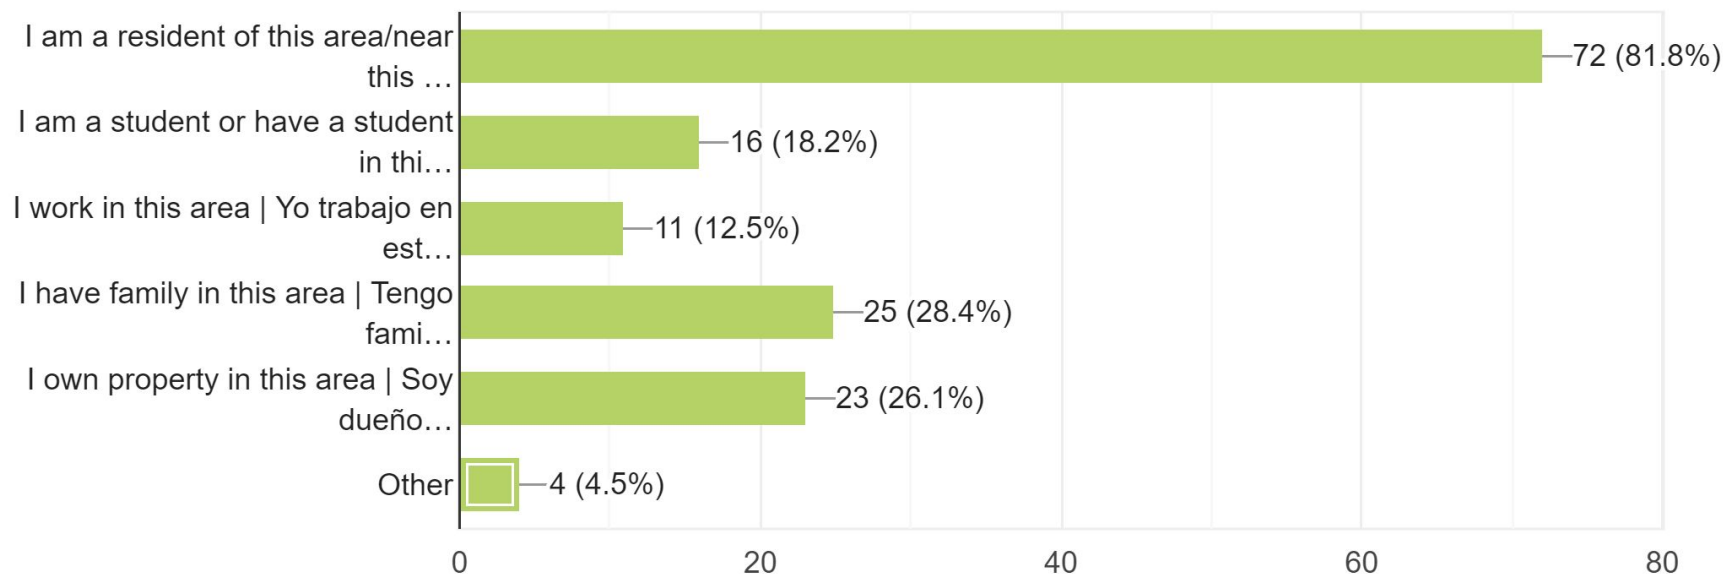

This area and surrounding areas are densely populated by suburbs, many of which are home to communities of color which have been historically disenfranchised and I see this as an attempt to further diminish the livelihoods of these surrounding communities.

The term “Best practices” used by the oil and gas industry do not mean what they imply. These “Best practices”, are not regulated and they are created by the industry in order to placate concerned citizens, elected officials, and insurance.

Fracking is believed to cause instability in the geology of the area with possible earthquakes and sinkholes resulting from the practice.

What is your relationship to this area? | ¿Cuál es su relación con esta área?

88 responses

Comments:

No fracking near GVR!

A fracking accident in Denton, Texas released a cloud of benzene gas (a dangerous carcinogen) that hung over the city. Especially with COVID-19, we do not need these kinds of accidents.

This community needs to be protected and the development in these surrounding communities needs to be agreed upon by its residents!

Please do not allow further damage to our precious earth.

Submission April 7, 2020 (via Aurora Portal).

Please include for the April 8, 2020 deadline the following comments, questions and concerns for: Project number 1417540-Planning & Development Services; The City of Aurora, Colorado Oil and Gas Conservation Commission (COGCC); regarding GMT Exploration Company LLC Oil and Gas Permit **Oil and Gas Permit- Case NO. DA 2211 00 (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) impact of Adjacent Property Owners**

From: Property and Homeowner, Green Valley Ranch Denver

Regarding: Project number 1417540-Planning & Development Services: GMT Exploration Company LLC Oil and Gas Permit **Oil and Gas Permit- Case NO. DA 2211 00 (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES)** Adjacent Property Owners

On March 10, 2020: late afternoon, Green Valley Ranch Denver constituents learned via the diligence of Stacie Gillmore, District 11 Denver City Council about a meeting for a new oil and gas permit (Case NO. DA 2211 00)(MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) that would be in Adams County off 42nd Ave & Picadilly Rd scheduled for (March 11, 2020). Acknowledging the business aspects involved with GMT Exploration Oil and Gas; as a property owner the following concerns are extended with a request for submission for comments record_City of Aurora, Colorado:

TRANSPARENCY

Concern impacted homeowners are informed late in the decision-making process. What proactive cross-communications related to the new oil and gas permit (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) will be implemented? A timeline of the proposed project and weekly update communications pushed to appropriate parties impacted is needed.

HEALTH ENVIRONMENTAL IMPACT STUDY

What health environmental impact reports and processes are occurring AND have been completed as part of the new oil and gas permit (Case NO. DA 2211 00)(MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES)? Where are these documents accessed via Denver District 11 city council staff and constituents?

PROPERTY VALUE IMPACT

GMT Exploration Company new oil and gas permit (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) is within **close proximity of homeowners' investment** (42nd Avenue and Picadilly Rd) and will adversely impact property values of homeowners, property owners and decrease natural resources adjacent and/or within the Green Valley Ranch community.

COLORADO STATE GREENHOUSE GAS EMISSIONS POLICY AND GOAL

Concern this permit does not support the State of Colorado's goal to reduce greenhouse gas emissions at least 50% by the year 2030. What specific policies and documented processes will ensure (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) will adhere to the State of Colorado's goal to reduce greenhouse gas emissions goal?

AIR QUALITY

Concern increased oil and gas industrial air pollution emissions into Green Valley Ranch residential area.

NOISE ORDINANCE

What decibels will the operation emit? The City and County of Denver prohibits overnight oil, and gas operations in Denver County. The new oil and gas permit (Case NO. DA 2211 00)(MCC 3-66 25-27 GMT -

OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) is within close proximity of homeowners' investment (42nd Avenue and Picadilly Rd). Will there be overnight oil, and gas operations as part of the (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) permit? **Will a sound barrier wall be built? What are the specific technologies, equipment, and best practices will be utilized to prevent exceeding 65 decibels?**

WATER AND GROUND WATER QUALITY CONTROL

Concern related to water, soil, ground water pollution controls.

Concern impact of cross-contamination of oil and gas operations pollutants into groundwater and soil adjacent to District 11 Green Valley Ranch. What are the specific rigor of technologies, equipment, monitoring and best practices will be implemented to prevent pollution of water, soil, ground water related to the (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) permit?

SAFETY, INDUSTRIAL TRAFFIC

What is the planning related to safety and industrial traffic related to the (Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) permit, et al?

MITIGATE SAFER ALTERNATIVE SITE LOCATION MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES)

Was there planning related to review/research of alternate oil and gas well permit sites that are not to adjacent property owners of Green Valley Ranch Denver?

COMMUNITY PARTNERS AND ENGAGEMENT

Green Valley Ranch Denver is an active residential HOA master planned-built community where residents enjoy outdoor nature trails, outdoor exercise and healthy neighborhood amenities. Green Valley Ranch Denver property owners and residents are deeply committed to their health, sustainability and prosperity. Green Valley Ranch Denver property owners and residents target is focused on all aspects of healthy environment over the long term; Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES jeopardizes the latter not just for the immediate proposed operation year, yet decades (**FY2050**) into the future. **As Green Valley Ranch Denver, our city, state, nation and global community respond professionally and collectively to the health crisis of Coronavirus Pandemic COVID19; Green Valley Ranch Denver community and leadership encourage transparent, informed data and process timelines in order to participate as engaged partners in the process of Case NO. DA 2211 00) (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES).** What are GMT Exploration Company and The City of Aurora and Colorado Oil and Gas Conservation Commission (COGCC) next steps, specific dates and timelines in the process related Oil and Gas Permit- Case NO. DA 2211 00? Are there opportunities to host **virtual, conference call meeting** within District 11 Green Valley Ranch (regarding permit and impacted GVR (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES)?

We look forward to collaborative, informed, timely and accurate information sharing during this Oil and Gas Permit- Case NO. DA 2211 00 (MCC 3-66 25-27 GMT - OIL AND GAS WELL PERMIT, OIL 16 WELLS ON 12.74 ACRES) process.

Most Respectfully, Property and Homeowner-Green Valley Ranch Denver

On 3/11/2020 Original Letter CC to the following in response to GMT Exploration Company LLC Oil and Gas attached letter: The City of Aurora, Colorado Oil and Gas Conservation Commission; **Stacie Gilmore, Denver District 11 Denver City Council; Melissa Sotelo, District 11 Council Aide; Veronica Booz Elected Member, The Denver Climate Action Task Force; Green Valley Ranch Denver Homeowners Association**

RE: MCC 3-66 25-27 Pad – 2nd Submittal Comments

April 7, 2020

Adams County appreciates the opportunity to submit this second round of comments to the City of Aurora ("City") on the proposed Oil and Gas Permit (Case Number: DA-2211-00) near the jurisdictional boundary with unincorporated Adams County.

The County has reviewed the responses from the applicant for the **MCC 3-66 25-27 Pad** in addition to the revised application materials and Operator Agreement (OA) with the City and has the following comments and suggested Conditions of Approval (CoA) for the siting of this proposed location:

- 1) **The City should consider as a condition of approval** that the operator commit to using only synthetic drilling mud (such as Neoflo or a similar product) during drilling phases to help minimize odors and associated emissions. *While this condition may not be required by the City or the OA, this CoA will help mitigate odor concerns for nearby businesses and homes as well as reduce associated emissions.*
- 2) **The City should consider as a condition of approval** that the operator be required to install 24-32-foot sound walls around the perimeter of the well site during all drilling and completion activities. *While this condition may not be required by the City or the OA, this CoA will help mitigate potential sound and visual impacts associated with development. Noise and visual impacts will only increase as the surrounding areas condition to be developed with housing and businesses.*
- 3) **Adams County would like to emphasize the importance** that the operator has committed to expanded Leak Detection and Repair (LDAR) program frequency as outlined in the application materials and the OA. The County further emphasizes that this LDAR program applies to all wells drilled from and equipment associated with the MCC 3-66 25-27 Pad. *This CoA will improve air quality by decreasing leak detection time and facilitating prompt repairs.*
- 4) **Adams County would like to emphasize the importance** that the operator has committed to an ambient air monitoring program for all wells drilled off the MCC 3-66 25-27 Pad as part of their revised application materials submitted to the City. The County further emphasizes this monitoring program will include baseline, continuous and periodic air monitoring for hydrocarbon compounds including benzene, toluene, ethylbenzene, methane and BTEX, as well as meteorological datalogging. ***The County requests that all reports and air monitoring data be shared with the Local Government Designee for Adams County within one week of receipt from the operator.***
- 5) **Adams County supports** that the operator has committed to the use of electric drilling rigs at the MCC 3-66 25-27 Pad. Additionally, the County supports the commitment of the operator to the use of Tier 4 engines or better for completion/fracturing equipment were technologically

and economically feasible. *This condition will help reduce emissions during pre-production activities and further reduce noise associated with drilling and completion activities.*

- 6) Adams County supports** the requirement of the operator to transport oil and gas from the MCC 3-66 Pad via permanent pipelines per the OA with the City of Aurora, allowing for only temporary storage of produced oil and gas on site for a short period of time. Additionally, the County supports the requirement that the facility be connected to pipeline prior to the start of production. *This BMP will reduce long term truck traffic along the approved transportation routes and reduce emissions, noise and congestion associated with increased traffic.*

Adams County feels these conditions and comments, in addition to the those previously applied by the City of Aurora as part of the application process and the OA, are reasonable and necessary to mitigate potential site-specific impacts to public health, welfare and the environment at the MCC 3-66 25-27 Pad.

Respectfully,

Greg Dean

Oil & Gas Liaison, *Community & Economic Development Department*

RE: MHFD Referral Review Comments

Project Name:	MCC 3-66 25-27 GMT - OIL AND GAS WELL (RSN # 1417540)
Location:	Northwest of 26 th Ave and E-470
Drainageway:	First Creek

This letter is in response to the request for our comments concerning the referenced project. We have reviewed this proposal only as it relates to maintenance eligibility of major drainage features, in this case:

- Access road crossing First Creek north of 26th Avenue
- Extended Detention Basin Outfall at project site

We have the following comments to offer:

- 1) The following comments were provided in January, but no comment response was provided. Please provide a comment response to this letter to acknowledge the District's comments.
- 2) The District has several large construction projects impacting First Creek from 26th Avenue to 38th Avenue – one project is focused on constructing a new culvert crossing at 26th Avenue. Another project will construct a new crossing at Picadilly Road, and will also have impacts to the First Creek channel between 26th Avenue and Picadilly Road.
- 3) The new crossing project at 26th Avenue is already underway. This project will be eliminating the existing culverts and constructing a new larger culvert approximately 450 feet west of the current culverts' location. There will be new floodplain relief culverts installed to either side of this new, main culvert. The 26th Ave project will have impacts to the access road proposed in these plans. Please work with the District to accommodate this new condition.
- 4) The District has a First Creek channel improvements project between 26th Avenue and Picadilly Road that may impact the channel corridor. Specifically, this portion of the First Creek channel has steep, unstable banks. As a result, the channel corridor may widen or be realigned in such a way that this project's infrastructure may be impacted. The outfall from the site should be stable in the interim condition, but will need to be adapted once First Creek channel improvements are complete. Please work with the District to accommodate this new condition.
- 5) The District would like to see future submittals of this project that provide an updated design for the access road/First Creek intersection and site detention basin outfall that incorporates First Creek and 26th Avenue crossing improvements. The District can provide needed design information as it becomes available.

Project Name: MCC 3-66 25-27 GMT - OIL AND GAS WELL
