Re: Minor Amendment Application

1375 S Coolidge Circle

Aurora, CO 80018

Scope of Project:

To address safety issues along our driveway we're proposing installation of speed bumps to slow traffic. This is on private property in a public access easement and the garages along the driveway only have three foot long aprons, which means they are backing out blind into the driveway. There have been several near collisions and one instance of an oncoming vehicle swerving and hitting a fence to miss a car backing out of their garage.

The driveway is being used as a short cut to get from S Coolidge to Florida Ave, rather than using the public streets.

Respectfully

Matthew E West, PLS
